## HOW TO CATALOGU

- All items are made in Japan except the special note for country of origin.
- The figure of size is in centimeter.  $\varphi$  : Diameter
- Please be noted that there is a slight tolerance of size.
- The figure of volume is measured as a full water level and it is an approximate figure.
- Please be noted as a nature of ceramic ware that there is a slight variation in design detail, mainly due to consumption of mold.

# Fair lady Flower

JAPANESE NATURL STYLE

The flower design in the classic Japanese style is sterically represented by the technique of "slip-trailing" to draw the radial lines and dots in the center on the glaze of gentle colors of pink, white and green.

The combination of the 3 colors is inspired by the Japanese traditional sweet dumpling.

# GOOD FELLING

OUTDOOR STYLE

Sets of Stainless-steel cup & Mug cup.

## Feature of the collection

The vacuum thermal function keeps the best temperature of drink bought at a convenience store and caffe by putting the cup into the tumbler. It is useful when working at desk, driving, and outdoor activity.

The size is to fit the general coffee cup for taking out.

The thermal effect by the double-layered stainless-steel structure for vacuum

The body has the thermal function by the double-layered vacuum structure to keep the best temperature of drink.

It keeps both warm and cool to enjoy the drink until the very last when it gets empty.

It is always easy to hold, since there is no dew for a cold drink and no scald is caused by a hot drink.

Saving a space by stacking

stackable design

The stackable design looks good and makes storage tidy with saving a space.

## Feature of the collection

The vacuum thermal function keeps the best temperature of drink bought at a convenience store and cafe by putting the cup into the tumbler. It is useful when working at desk, driving, and outdoor activity.

The size is to fit the general coffee cup for taking out.

the double-layered stainless-steel structure for vacuum
